

**NAME**

terse\_dump

**SYNOPSIS**

set dt.debug.known to shorten all image dumps to a single line

**USAGE**

```
local dd = require "lib/dtutils.debug"
```

```
dd.terse_dump()
```

**DESCRIPTION**

terse\_dump sets dt.debug.known to shorten all images to a single line.

If you don't need to debug the content of images, this will avoid them flooding your logs
