

NAME

dtutils.log

SYNOPSIS

darktable lua logging library

USAGE

```
local log = require "lib/dtutils.log"
```

DESCRIPTION

log provides a multi-level logging solution for use with the darktable lua scripts. With this library you can leave log messages scattered through out your code and only turn them on as necessary.

RETURN VALUE

log - library - the darktable lua logging functions

EXAMPLE

```
local log = require "lib/dtutils.log"
```

```
local cur_level = log.log_level()  
log.log_level(log.warn)
```

print out warning, error and success messages as code is running

```
log.log_level(debug)
```

print out debugging messages too because this isnt working

```
log.log_level(info)
```

I want to make sure this is working ok

```
log.log_level(cur_level)
```

reset the logging level back to normal
